## Phase 6: Write-Up and Reflection

For each building you've built, please write a reflection. In that reflection, you must include what your building is, why you chose to build it, and how it fulfills a **need** in your neighborhood. This will be a first draft; eventually, you will make a final draft that will be published on your neighborhood. Please use all you know about good writing here. Include an introductory sentence, evidence, reasoning, and unique thoughts to help us understand!
