## PROFESSIONAL EXPERIECE

### Medical Software Trainer - Contracted
University of Washington Medicine | Seattle, WA
*August 2020 - April 2021*
- Epic Electronic Health Records (EHR) software implementation project for the University of Washington Medicine.
- Conducted training to medical professionals on the successful use of software functionality and workflow in a remote setting.
- Developed learning assessments and tracked learning outcomes using LMS data, Sharepoint, and Forms.
- Collaborated with subject matter experts to create resource guides on software use and workflow.

### Computer Science Teacher/Technology Coordinator
Chicago Public Schools | Chicago, IL
*August 2019 – June 2020*
- Designed and delivered K-8 computer science curriculum in a classroom and remote setting.
- Implemented cross-curricular project-based learning initiatives using ISTE and CSTA standards.
- Acquired essential technology resources for my classroom and redesigned the aging school computer lab.
- Supported students and staff in Covid-19 remote learning initiative.
- Maintained all 1:1 technology needs in a school of 500 students.
- Responsibilities including purchasing, asset management, test administration, software, and hardware troubleshooting.
- Experienced in troubleshooting Windows OS, Apple OS, and Chrome OS.

### Assistant Teacher/Science and Technology Coordinator
Latin School of Chicago | Chicago, IL
*May 2017 – August 2019*
- Supported a lead teacher and 21 third-grade students by applying proactive and reactive behavior management techniques, curating a classroom website, and organizing small-group learning.
- Developed a new social studies curriculum and project-based learning unit with team leads.
- Developed and conducted science and technology programming for middle school students focusing on topics of computer programming, science experimentation, robotics, and inquiry-based learning.

### Benefits Coordinator
National Heritage Academies | Grand Rapids, MI
*March 2016 - March 2017*
- Implemented and maintained a paid time off program for 1,200 employees.
- Analyzed and presented data to leadership to determine paid-time-off program effectiveness.
